

# BODY FAT WORKSHEET

**Occupational Health Programs  
Department of Human Resources  
County of Los Angeles**

Client Name: \_\_\_\_\_  
Last 4 SSN: \_\_\_\_\_ Date: \_\_\_\_\_  
Clinic Location: \_\_\_\_\_

The County requires that contractors use the County's four-site skin fold procedure to estimate body fat. For complete details see the County's Clinical Testing Procedures.

All measurements must be made on the right side with the subject standing upright. A minimum of two tests at each site is required. Complete all of the initial tests at each site, recording each measurement to the nearest 0.5 mm. Then, start over and complete a second test at each site. Be sure to do the second test in the same order as the initial testing. Take a third measurement if the measurements at a site differ by more than 2.0 mm.

HEIGHT (Barefoot): \_\_\_\_\_ WEIGHT: \_\_\_\_\_

Skin Fold Site	Initial Test (T1)	Second Test (T2)	Difference between Tests	Third Test if Difference >2.0 mm	Average of T1 and T2, or, Average of the two closest measurements
Sub scapula					
Triceps					
Biceps					
Suprailiac					

Name of Technician: \_\_\_\_\_ Sum = \_\_\_\_\_ mm

Sum of 4 Skinfolts	% of Body Fat		Sum of 4 Skinfolts	% of Body Fat		Sum of 4 Skinfolts	% of Body Fat	
	Male	Female		Male	Female		Male	Female
60	22.0	30.5	78	25.3	34.4	96	27.9	37.5
61	22.3	30.8	79	25.5	34.6	97	28.1	37.7
62	22.5	31.0	80	25.6	34.8	98	28.2	37.8
63	22.7	31.3	81	25.8	35.0	99	28.3	38.0
