Clinics for Drug and Alcohol Testing Urine Collection Sites

Los Angeles County contracts with American Substance Abuse Professional Drug Solutions, Inc. (ASAP) to provide drug and alcohol specimen collection and laboratory testing services.

All of the clinics listed provide testing for commercial drivers under the federal Department of Transportation (DOT) testing requirements. Some of the clinics listed also provide random, reasonable suspicion, and follow-up drug testing according to County policy.

NEW: Two of the clinics listed provide a mobile response to the work site for on-site sample collection in accordance with Non-DOT collection procedures. These sites will provide a response within 90 minutes to work sites within a 25-mile driving distance of the facility. Response times for distances longer than 25 miles could be longer. Contact the clinic for an estimate of the response time to your location. The cost for mobile response service is a \$200 call-out fee and a \$50 sample collection fee in addition to the standard cost for analysis.

Clinic Location	Hours of operation	Services Available
